Paying with Reposting

when you repost a picture I created with one of your products, you can save 3.-€ per 1500 Followers on your IG Account. When you have reposted a picture and it is on your Account for at least 2 weeks you can use the 3.-€ per 1500 Follower "credit" to pay. For example you have 10.000 Followers you can save 18.-€.

Pay with Products

you can pay off by sending me products instead of paying with money. For a pay-off with products, please, contact me first.

When I like your brand and we stay in contact you get 4 IG Story post for free each month, and I will show your products for free in my videos, whenever I am using them. This includes videos like "what I eat in a day", "vlogs" etc., but excludes videos I especially create with your products.

For showing your products you first have to send me something from your range, what you pick is up to you as long as it is vegan and gluten free and cruelty free. This way the first 2 IG Story Posts will be free (when the products worth is over 15.-€).

What pictures I post is up to me. If you have special wishes we need to discuss them beforehand and may have to charge/change costs.

If you want to send me products for free without discussing any precondition - that I have to show the products - I may or may not show them.

Terms and conditions will change when IG @MarinaKristensenSAH reaches 1500 Followers. Make sure to keep this list updated.

When a deal is settled there will not be changes in the price, even if this list changes.

I will start my work after receiving the products/ money.

All prices include preparation, creation, filming/ taking pictures, editing and uploading.

Errors excepted. Subject to change.
